

THE BUSINESS OF INTERNET

THE INTERNET, ONLY FASTER

Always on. Always affordable.

Zinia LTE effortlessly connects all your business devices across your wireless network without the hassle.

ZINIA LTE

Superb coverage across platforms

Zinia LTE and LTE advanced assure you of fast Internet speeds of up to 150 Mbps per second and bundles of up to 200 GB, providing you with coverage at impressive speeds around the country. The Zinia Advanced Edge Router is designed to provide you with an enterprise grade solution that's affordable, always on and ready for whatever the future brings. Think high speeds and high capabilities. Think superb support and monitoring services. These are just some of the thoughts that went into the development of the Zinia LTE offering.

Zinia LTE is the ideal investment for the organisation that wants bursts of high-speed Internet that can handle the challenges of the modern market.

ADVANCED CONNECTIVITY

Zinia LTE is an enterprise grade solution that comes with the support, services and capabilities the enterprise demands, but without the price it expects. With our LTE offering, you are assured of high speed system setup and configuration, and high-speed connectivity once you're up and running. Our LTE package delivers superb coverage across multiple platforms and, if there is a loss in connectivity, your business is automatically switched to another network without delay. With us, connectivity is assured.

We will constantly monitor your network and our remote support service ensures that a trained agent is always ready to assist you should the need arise. For the business that wants fast, cost-effective connectivity with exceptional service, we've got you covered.

BENEFITS

There are significant benefits to investing in the Zinia LTE solution, here are some of the best:

- ✓ Full monitoring and remote support due to our Zinia advanced Edge router
- ✓ Wireless connectivity across multiple networks at high speeds
- ✓ Affordable, fast to deploy connectivity that matches your budget
- ✓ No cables, no theft, just the Internet
- ✓ Seamless and swift installation and deployment
- ✓ Bursts of high speed and no fixed IP
- ✓ Customised LTE solutions to suit your organisation's unique requirements

Enjoy superb connectivity and exceptional speeds along with superb service and exceptional support.

“

The LTE service I get from Zinia is great. The speeds are very good. It's a great solution for a company that doesn't have the infrastructure for a more permanent solution. So if you need a fast reliable connection without having to put in an ADSL line or fibre then this is the solution!

Gavin Gilbert, The Size Surfaces (Pty) Ltd

“

The best way to decide what Internet solution is best for your business is to determine how reliant your business is on the Internet. We can help you make this decision in line with your budget and strategic goals.”
