THE BUSINESS OF INTERNET

ZINIA FIREWALL

THE FIRST LINE OF DEFENCE

Market Leader in Security Management

Zinia Firewall provides your business with market-leading network and security management for comprehensive control over risk and process.

ZINIA FIREWALL

A Ring of Fire

Zinia Firewall is a ring of security wrapped around your business, ensuring that your data and users are protected from external threats. Our firewall implementation delivers exceptional security management - blocking malicious malware, ransomware, detecting viruses, monitoring hardware and network activity, and keeping your systems up to date. It is the first, best defence against the rising cyber threat. Our easy to use executive dashboard also allows you to manage your users, ensuring maximum productivity for your most expensive cost, your staff.

Stop security threats in their tracks. Protect your organisation with a reliable ring of defence. Experience exceptional support. Zinia Firewall.

MARKET LEADERS IN SECURITY MANAGEMENT

The Zinia Firewall platform includes rich functionalities across both network and security management to provide you with exceptional control over your business and its security. We will help you take your security to the next level without increasing your admin burden or adding unnecessary complexity. Our executive dashboard is designed with a simple user interface and it allows you to manage your entire network with traffic prioritisation, failover management, load balancing and detailed reporting. The network management element also includes user reporting, user management, user limits and thresholds, and automated reports submitted in accordance with your specifications.

On the security side, the Zinia Firewall solution assures you of malicious malware blocking, ransomware prevention and virus detection along with tailored software management and detailed monitoring services. Our solution detects and stops the latest virus activity thanks to regular updates and consistent system monitoring.

BENEFITS

Ensure your business is secure with Zinia Firewall and its exceptional benefits

- ✓ Manage your entire network on our user-friendly dashboard that any non IT person can use
- ✓ Manage online activity, your user's limits and data thresholds
- ✓ Easily block non-business websites
- ✓ Give priority to business critical systems when the system is under pressure at peak times
- ✓ Access and customise reports that can be automatically submitted on a schedule of your choice
- ✓ Includes all the features and benefits you need with no additional costs
- ✓ Block and stop malicious malware, ransomware and viruses
- ✓ Manage hardware functionality to optimise performance

The Zinia Firewall platform provides you with high level executive reporting and user management to ensure that traffic is prioritised, activities are controlled and systems remain optimised.

> **"Dealing with Zinia has been a remarkable experience. Everything went so smoothly and the service was excellent. All promises were met and in some cases exceeded. I would recommend dealing with Zinia to everyone."**
